THE CONFERENCE IN A NUTSHELL

The 52nd International Symposium on Robotics ISR 2020 will again be held in Munich, Germany, from June 17-18, 2020. This international conference is jointly organized by the Mechanical Engineering Industry Association (VDMA) and the Information Technology Society (ITG) within VDE.

The international trade fair for automation and mechatronics automatica has again been chosen as conference platform. automatica expects more than 800 exhibitors and more than 45,000 visitors from June 16-19, 2020. As the fair will last longer than ISR 2020, there is the possibility and time for all conference participants to visit this interesting exhibition during and after the conference. In more than 100 presentations, ISR 2020 will give an insight to the latest state-of-the-art robot technology to participants from both industry and science.

A special IERA Session and the Presentations of the final nominees of the Joseph F. Engelberger Award and IERA Award highlight the conference's gala banquet.
